Pursuant to the Nebraska Commercial Fertilizer and Soil Conditioner Act, (Act) Neb. Rev. Stat. §§81-2,162.01 to 81-2,162.28, the Department of Agriculture (Department) is responsible for the administration and enforcement of the Act. AltEn, LLC. (AltEn) has registered with the Department a soil conditioner for distiller's grain under §81-2,162.03 of the Act which is further distributed by Settje Agri-Services and Engineering (Settje).

Based on information received from AltEn, this distiller's grain soil conditioner will no longer be used as a soil conditioner as currently registered under the Act. Section 81-2,162.02 of the Act defines soil conditioner to mean a product distributed which is intended to change the physical condition of the soil or produce a favorable growth, yield, or quality of crops or other soil characteristics. AltEn's distiller's grain is no longer intended for such use, therefore, no longer meets the definition of a soil conditioner. The soil conditioner registration for AltEn's distiller's grain is hereby cancelled.

Dated at Lincoln, Nebraska, this 14th day of August, 2019.
