

## **MEMORANDUM**

---

**DATE:** January 21, 2021  
**TO:** AltEn LLC – file      **FACILITY ID:** 84069  
**THRU:** Brad Pracheil  
**FROM:** Rachel Neisius  
**RE:** Site visit

January 21, 2021, I, Rachel Neisius conducted air quality monitoring in the Mead area at 11:00 am. Investigation was conducted in response to continuing concerns from area residents smelling foul odors and improper use of wet cake. It was 39 °F, sunny, with winds out of the SW at approximately 5mph.

### Observations:

- 1) I drove Road 10 past the facility, and saw multiple semis with hopper style trailers sitting at the facility.
- 2) I stopped and viewed the facility from county road K, so I could see the entrance of the facility. I saw three semis leave the facility, and one arrive during the time I was monitoring.
- 3) I saw no activity near the wet cake pile while I was monitoring.
- 4) I saw a blue metal shipping container and two small augers by the wet cake pile.
- 5) I left the site at about 11:50 am.
