

## ***MEMORANDUM***

---

**DATE:** January 19, 2021  
**TO:** AltEn LLC – file      **FACILITY ID:** 84069  
**THRU:** Brad Pracheil  
**FROM:** Rachel Neisius  
**RE:** Site visit

January 19, 2021, I, Rachel Neisius conducted air quality monitoring in the Mead area at 11:20 am. Investigation was conducted in response to continuing concerns from area residents smelling foul odors and improper use of wet cake. It was 38 °F, scattered clouds, with winds out of the SW at approximately 15.

**Observations:**

- 1) I drove Road 10 past the facility, and saw multiple semis with hopper style trailers sitting at the facility. Two semis left the facility during the time I was monitoring.
- 2) I saw no activity near the wet cake pile while I was monitoring.
- 3) I saw multiple large piles of dirt north of the facility, and a large pile of dirt south of the facility.
- 4) I left the site at about 11:50 am.
