

Chromium Electroplating & Anodizing - NESHAP Subpart N
Important Dates
6/8/11

- Source Classification
 - Status
 - Existing Source = constructed or reconstructed on or before 12/16/93
 - New Source = constructed or reconstructed after 12/16/93
 - Size
 - Small = Rectifier capacity < 60 million amps/year
 - Large = Rectifier capacity \geq 60 million amps/year
- Initial Notification
 - All sources = 7/24/95
 - New sources after 7/24/94 = 120 days after startup
- Construction/Reconstruction Notification
 - Construction/reconstruction after 1/25/95
 - Date construction commenced within 30 days
 - Actual date of startup within 30 days
- Compliance Dates
 - Existing
 - Decorative Plating = 1/25/96
 - Hard Plating or Anodizing = 1/25/97
 - New
 - Startup between 12/16/93 & 1/25/95 = 1/25/98
 - Startup after 1/25/95 = Upon startup
- Notice of Intent to Test
 - 60 days prior to test
- Compliance Status Notification
 - Decorative with trivalent chrome bath & wetting agent = 2/24/96
 - Required to test = 45 days after test
 - Not required to test = 2/24/97 or 60 days after compliance date
- Compliance Report
 - Area sources
 - Annually prepare and keep on-site
 - Submit upon if excess emissions
 - Due 30 days after reporting period
 - Major sources
 - Semiannually
 - Quarterly if excess emissions
 - Due 30 days after reporting period
