Compliance Dates

- New or reconstructed sources must be in compliance with this standard by March 5, 2004 or upon startup, whichever is later.

Check the box that applies:

- Facility is a major source of hazardous air pollutants (HAPs).
- Facility is an area source of HAPs.
- Source classification is unknown.

NOTE: A major source is a facility that has a potential to emit greater than 10 tons per year of any single HAP or 25 tons per year of multiple HAPs. All other sources are area sources. The major/area source determination is based on all HAP emission points inside that facility fence line.

Print or type the name and title of the Responsible Official for the facility:
