If your facility is located in Omaha or Lancaster County, you must submit a notification to the appropriate local air pollution control agency and Region VII EPA.

Provide a brief description of the source (include nature, size, design, and method of operation):

Identify the emission points applicable to this standard:

Identify the hazardous air pollutants emitted from the applicable emission points:

Compliance Dates

- Existing sources must be in compliance with this standard by July 16, 2007.
- New or reconstructed sources must be in compliance with this standard by July 16, 2007 or upon startup, whichever is later.

Check the box that applies:

- Facility is a major source of hazardous air pollutants (HAPs).
- Facility is an area source of HAPs.
- Source classification is unknown.

NOTE: A major source is a facility that has a potential to emit greater than 10 tons per year of any single HAP or 25 tons per year of multiple HAPs. All other sources are area sources. The major/area source determination is based on all HAP emission points inside that facility fence line.
