

ORDINANCE NO. 126

AN ORDINANCE OF THE VILLAGE OF BRUNO, NEBRASKA TO CONTROL CONSTRUCTION OF WATER WELLS IN THE CONFINES OF THE VILLAGE, TO REPEAL ORDINANCES IN CONFLICT, AND TO PROVIDE FOR AN EFFECTIVE DATE.

BE IT ORDAINED BY THE CHAIRMAN AND THE VILLAGE BOARD OF THE VILLAGE OF BRUNO, NEBRASKA:

SECTION 1. Construction of water wells, Construction of a water well of any kind, whether a sand point, a well drilled by cable or by rotation shall be prohibited within corporate limits, or within one (1) mile of said corporate limits, unless the village board has approved by a majority vote. The well constructor must obtain written permission of the village board before constructing the well.

SECTION 2. The water well must be located according to the distance allowances contained in State Health Department publication EE127B (1979) which is attached.

SECTION 3. All ordinances and resolutions and parts thereof in conflict herewith are hereby repealed.

SECTION 4. This ordinance shall become effective after its adoption.

PASSED AND APPROVED BY THE GOVERNING BODY OF THE VILLAGE OF BRUNO

THIS 5TH DAY OF MAY 1987.

William R. Voburk
Chairman

(SEAL)

ATTEST: Donald A. Stara
Village Clerk

DESCRIPTION OF PROPOSED WELL SITE

EE 127B

Municipality _____ Well Number _____

Location _____

MAPS

Attach a map of the existing water works showing the connection of the new well to existing or proposed water mains. Show the location of all wells, pumping stations, reservoirs and elevated tanks in the immediate vicinity of the new well. This should include sizes of water mains and equipment.

SITE

Record the distance, direction and location from the proposed well to the following if less than the specified distance of the site:

	DISTANCE	DIRECTION/LOCATION
Potable water		
well (1000 ft.)	_____	_____
Other well (1000 ft.)	_____	_____
Sewage lagoon (1000 ft.)	_____	_____
Absorption or disposal		
field for waste		
(500 ft.)	_____	_____
Cesspool (500 ft.)	_____	_____
Dump (500 ft.)	_____	_____
Feedlot or feedlot		
runoff (500 ft.)	_____	_____
Pasture or corral		
(500 ft.)	_____	_____
Pit toilet (500 ft.)	_____	_____
Sanitary landfill		
(500 ft.)	_____	_____
Septic tank (500 ft.)	_____	_____
Sewage treatment		
plant (500 ft.)	_____	_____
Sewage wet well		
(500 ft.)	_____	_____
Sewer connection		
(100 ft.)	_____	_____
Sewer manhole (100 ft.)	_____	_____
Sewer line (50 ft.)	_____	_____
Other possible		
contamination source	_____	_____

Was site ever flooded? _____ When _____ Height of water _____

WATER QUALITY

Attach the results of the chemical water analysis which should have been taken from the test well. If a test well was not drilled and completed, please obtain a sample for chemical analysis from the new well upon its completion. A clean, non-metallic, pint bottle is an adequate sample container. The sample can be analyzed by the State Health Department Laboratory.
