

PUBLIC NOTICE
PROPOSED REMEDIAL ACTION DECISION
MAGNOLIA METALS, AUBURN, NE

Nebraska Department of Environmental Quality
Waste Management Division
Remediation Section

Notice is hereby given pursuant to Neb. Rev. Stat. §81-15,185 that the Nebraska Department of Environmental Quality (NDEQ) is proposing approval of the Remedial Action Plan (RAP) for the Magnolia Metals facility, 63859 730th Road, Auburn, Nebraska. This proposed determination is in accordance with Neb. Rev. Stat. §81-15,185. The Magnolia Metals facility is located in the northwest quarter of the northeast quarter of Section 16, Township 05 North, Range 14 East, Nemaha County, Nebraska.

Soil at this site is contaminated with lead as a result of previous operations. Groundwater was investigated and was not found to be contaminated. The proposed final soil cleanup levels are shown in Table 1. The NDEQ is proposing the following remedial actions: 1) soil with lead exceeding the proposed cleanup level of 750 mg/kg will either be excavated and disposed of off-site or covered with an engineered cover or clean soil cap; and 2) an institutional control will be used to prohibit residential development of the site or disturbance of the engineered cover or clean soil cap.

Table 1. Proposed Final Cleanup Level at Magnolia Metals

Contaminant	Concentration
Lead	750 milligrams per kilogram (mg/kg)*
*Based on NDEQ VCP Remediation Goals (RGs) for industrial sites, soil direct contact exposure pathway	

Any person may receive additional information, submit comments regarding the proposed actions, or request a public hearing, in writing, on or before **September 20, 2012**. A request for hearing must state the nature of the issues to be raised and all arguments and factual grounds supporting such position. If the Director grants a public hearing, the hearing will be advertised by public notice at least 30 days prior to its occurrence. Comments and requests should be mailed to:

Mr. David Haldeman
