

2025 Scrap Tire Cleanup Events Funded by NDEE's Waste Reduction & Recycling Incentive Grant Program

Updated March 20, 2025

Counties shaded blue on this map will have a scrap tire cleanup event in 2025. The four-digit numbers associated with each county represent the application number. That number can be found on the table on the following pages along with details about the corresponding scrap tire event. The table will be updated as more information becomes available.

Scrap tire cleanup events are organized by the applicants who received grant funds. Questions about specific events should be directed to the applicants. In total, NDEE funded 21 scrap tire cleanup events across 28 counties, collecting up to 5,875 tons of scrap tires.

Application Number	Applicant Name	Counties/ Communities Served	Project Description	Applicant Contact Email	Event Date	Event Location
