Section 4.1: NSPS Applicable Requirements (continued)

IMPORTANT: Do NOT use pencil to fill out this application. Please type responses or use black ink.

For each New Source Performance Standard (NSPS) that may appear to apply to a unit(s) located at your facility but actually does not apply, identify the applicable requirement (e.g. NSPS, Subpart IIII), the requirement citation (ex. T129, Chapter 12, Section 001.76 and/or 40 CFR 60.4200), and the unit(s) that appear to apply to the subpart (ex. EU20-Emergency Generator) and the reason why the subpart does not apply (e.g. displacement is greater than 30 liters per cylinder). Only units being addressed in this application need to be included on this page.
